The Plumber

With stately stride the plumber comes, and stays around a while and plumbs. He gives the boiler sundry slaps, and tinkers with the pipes and taps and when he leaves his humble place a smile of gladness lights my face. For he has made a modern shack of my abode, which, three weeks back, was such as people used to walk along about the age of stone. For years I bought all kinds of pills to cure my relatives of ills. My poor old granny had the heaves, and swallowed tea of boneseed leaves, year after year, and still felt punk, with daily spasms in her trunk. My aunt was foundered, and she knew green pains with every breath she drew, and though I bought her pails of dope the poor old girl was shorn of hope. My Uncle Hiram's rheumatism just kept him muttering, "Gee whizz!" And every one around the shack had pink lumbago in the back. And then the Wise Man came along and said, "You'll never be well and strong, you'll always have the grievous gripes, until you put in modern pipes." The plumber came, with lead and brass, and freed the place from sewer gas, and sprung some sanitation curves—and gets the praise that he deserves. Now granny has no fell disease; she's swinging on the high trapeze; my aunt can take a fall from Gotch in seven minutes by the watch, my Uncle Hiram, rid of aches, can whip Jack Johnson in three shakes.

WALT MASON.

"FIRE REGAINED" LOST MONEY.

Deficit Instead of Surplus for Distribution Among Charities.
Despite the zeal and talent with which the 1,200 participants in the Greek pageant-drama, "The Fire Regained," performed their part, and despite the fact that there was a generous attendance at each night's performance of the spectacle, there is a deficit and the charities for whose benefit it was given will receive no assistance in consequence.
How much the deficit is will be known at a Wednesday night meeting of the committee which had charge of the spectacle is to be held.
The chairman issued notice that all bills should be in by that time. He said he could not understand why the performances had not been a success financially as they were in every other respect. He said he felt the charities that were to be benefited did not do all that they might have done to furnish the play, tickets, and that if they had there should have been a satisfactory profit to their credit.

ASSAULTED AND ROBBED.

Mrs. Winifred Mallon Reports Being Knocked Down by Colored Man.
Mrs. Winifred Mallon, 431 New Jersey avenue southeast, was assaulted and robbed of about \$4 in cash while on her way home shortly after 1 o'clock yesterday morning.
Mrs. Mallon left the pressroom at the State War and Navy Department building after midnight and was at New Jersey avenue and D street southeast, only a few doors from her home, when she was pushed down by an unidentified colored man and robbed of her handbag. A physician who was summoned to attend Mrs. Mallon found that her nose and face had been cut and bruised by coming in contact with the pavement. She was able to furnish the police a description of the footpad, but search for him proved futile.

SEVERAL SMALL FIRES.

Vacant Houses, Stable and Store Among Those Slightly Burned.
Vacant houses Nos. 126 and 134 Francis street southeast and a stable in the rear of No. 128 were damaged by fire yesterday afternoon about 5 o'clock. Damage to the houses amounted to \$110, the police report, while the stable was damaged to the amount of \$50. The fire was of unknown origin.
Fire in the store of Abraham Schoen, 201 I street southeast, last night about 9 o'clock caused \$150 damage. The fire probably resulted from spontaneous combustion.
Children playing with matches yesterday morning started a fire in the house of Abraham Jackson, 116 L street northeast. About \$25 damage resulted.
Firemen of No. 21 engine company yesterday spent four hours fighting a stubborn fire on the dump at Cathedral avenue and Woodley place. It is stated that the fire had been smoldering for several weeks, and firemen say that the use of water resulted in an explosion.
The fire burned deep down into the dump, and a large crowd of spectators near the scene watched the firemen.

Italian Course for G. W. U.

If the course is given the classes probably will come Tuesday, Thursday and Saturday, at 5 o'clock, and will be under the direct supervision of Prof. S. Henning, head of the department of romance languages.

NOT YET TOO LATE TO PLANT CITY LAWN

Department of Agriculture Issues Series of Bulletins on Subject.

"Treatment of Lawns With the View to Making Homesteads in the City Look More Attractive" is the subject of a series of articles now being issued by the Department of Agriculture. The department says that even though city lawns were not seeded in the early spring, which is the best time for doing so, it is not yet too late to plant them and improve the lawns for the remainder of the summer.
The department recommends the use of equal parts of Kentucky blue grass and redtop. It says that this should be used at the rate of one pound for every two hundred square feet. In case there are many bare spots on the lawn, it is recommended to add about an equal part of white clover seed to the mixture.
The lawn should be well loosened up so that the seed will have a chance to take a deep root.
Care in Watering.
Further care of the lawn in the line of watering is discussed and it is said that householders as a rule make a greater mistake about watering than about any other feature in caring for the grass. The notice says that July is much the hardest month on the city lawns, and many householders are surprised to find that the grass withers and dies off when they had thought that they were taking good care of it. This is said to be due very largely to bad methods in watering and allowing the grass to be washed bare.

WASHINGTON CRICKET CLUB MEETS DEFEAT

St. George Team of Baltimore Takes Locals Into Camp by Score of 58 to 53.

The Washington Cricket Club opened the cricket season yesterday in a match with the Sons of St. George, played at Baltimore, and suffered defeat by five runs, the score being low on both sides—58 to 53. W. Warren batted well for Washington, scoring 20 runs. Dr. Tom Williams compiled 8 and H. G. Stokes 4. For Baltimore, F. Harrison and J. Palmer were the top scorers, obtaining 16 and 14, respectively. Dr. J. S. Cannon and W. De Motte each obtained four wickets. The innings were scheduled for two. The match yesterday was the first of a series of seven to decide the championship between Washington and Baltimore. Other matches are scheduled for two Philadelphia teams and many matches between the captain's and vice captain's teams will be played. The loss of a number of last year's players, including Capt. Rose and the two Mortons, will be felt, and it is hoped that their places will be filled by new devotees of cricket. Practices are held at the grounds in Rock Creek Park, at the head of the Avenue of the Presidents, every Thursday afternoon, and all cricketers are welcome to use the nets at any time.
The next match against Baltimore will be played in Washington June 7. The score of yesterday's match follows:

AMERICA'S A PEACE FLAG.

Emblems of Other Great Nations Bring Thoughts of War.
"The Flag of Peace" was the subject of a lecture delivered yesterday at the Epiphany Church by Judge William F. Norris. "The character of a nation is read on the folds of its flag," he said. "When we see a flag we think of the power it represents. The Russian flag makes us think of the great Russian empire and arbitrary imperialistic power; the German flag of a highly organized military power; the French flag of the romance and chivalry of war; the British flag of imperialistic military power, of the highest type of republican imperialism. All these flags are suggestive of war. But when you look on the American flag you think of peace, not war. Our national heroes, Washington and Lincoln and the others, have been first of all men of peace, not of war."

Will Open Summer School June 8.

FORECAST IS FOR RAIN IN THE PRESENT WEEK

Disturbance Coming From the West Will Bring Rain and Cooler Weather.

Summery temperatures with a scattering of summer showers were predicted by the weather bureau for the current week, in the forecast issued today—that is, the warm weather is to last, anyhow, until about Thursday, when it may turn cooler.
The cool weather, which may be looked for in this part of the country about Thursday or Friday, is expected to follow in the wake of a disturbance that is due to develop tomorrow in the far west, crossing the country in a succession of thunderstorms and wetting down the Atlantic seaboard toward the close of the week.
Forecast for the Week.
This is what the forecast says in regard to this week's weather:
"The indications are that during the coming week the temperature will average above the normal in the eastern and southern states, the Ohio valley and the central west, and near or somewhat below the normal in the northwestern states, the Rocky mountain region, and on the Pacific slope. The rainfall during the week will be generally local, but will be distributed over the northern and western states."
Coming From the West.
"A disturbance that now covers the northwest will advance eastward and cause showers and thunderstorms the first half of the week in the northern states from the upper Mississippi valley eastward and locally in the Rocky mountain and plateau regions.
"Another disturbance will appear in the far west about Tuesday, cross the great central valleys Wednesday or Thursday and the eastern states about Friday; this disturbance will be attended by well distributed showers and thunderstorms east of the Rocky mountains, and it will be followed by a general change to cooler weather."

REV. JEROME DAUGHERTY DEAD

Former President of Georgetown University Succumbs to Pneumonia.
Word has just been received here of the death of St. Vincent's Hospital, New York city, of Rev. Jerome Daugherty, who succumbed to pneumonia. Father Daugherty for twenty years was connected with Georgetown University here, serving as president of the university from 1901 to 1905.
He was born in Berks county, Pa., in 1849. He received his education in Maryland, attending Loyola College and Woodstock. Father Daugherty was regarded as one of the leading educators of the Society of Jesus and of the Catholic Church in America. He was an able administrator, and Georgetown University prospered under his direction.
All these flags are suggestive of war. But when you look on the American flag you think of peace, not war. Our national heroes, Washington and Lincoln and the others, have been first of all men of peace, not of war."
